

David Gausden

BA (Hons) Dip Arch RIBA FCDS
Associate Director

David has a wide range of experience in Architecture, Interior Design and Exhibition Design. He began a specialist interest in interiors, exhibitions and mobile/temporary structures whilst working for Apicella Associates and Pentagram. Of particular note are:

The TSB Mobile Unit featured on the BBC's Tomorrows World.

Investigate, an interactive laboratory within the Natural History Museum London.

Sculpture for La Perla - Lingerie Boutique London.

The RIBA award winning Research and Design Centre for Adshel, London.

At Design Engine David has designed and delivered a number of prestigious projects as well as contributing in securing new work for the practice. These include:

The interiors to the University Of Winchesters Student centre.

A new reception, cafe and library to Buro Happolds offices in Bath within a listed wharf building.

A new library and IT suite to John Keble School in Hursley, Hampshire.

The New Performing Arts Studios building for the University of Winchester.

David's current projects include Les Beaucamps High School in Guernsey, The Vice Chancellors Suite at the University of Southampton and a new reception to the Old Building at the London School of Economics.
