

# Melanie Haas

BA Hons Dip Arch (dist) RIBA  
Architect

Melanie is an Architect with Design Engine, based in the Winchester office. She has been responsible for the concept development team for Les Beaucamps, a new secondary school in Guernsey and is currently working on the new Student services building for Oxford Brookes University.

Before joining Design Engine in 2006 Melanie was working for Evans Vettori Architects in Derbyshire and worked on an office building and a special school in Sheffield as part of the Building Schools for the Future (BSF) programme.

Melanie is German and before coming to England she worked for three years at Kehrbaum Architekten where she was working on a variety of residential projects and a masterplan for a southern German city.

Melanie studied at the University of Applied Science in Augsburg, Germany. During this time she went to New York for six months to work at Leeser Architecture. As a student she won two national student competitions in Berlin and Regensburg.
